ONLINE SURVEY RESULT

SRH LimeSurvey Platform

- Open-source platform
- Run completely on SRH Hochschule Berlin servers
- Written in PHP/MySQL
- Features:
 - Completely web-based
 - Simple account management
 - Parallel language versions on the same survey
 - Token Management
 - Access control
 - Automated e-mail invitations and reminders
 - E-mails are sent individually, not in bulk (spam)
 - Descriptive statistical summary viewer

Survey Return

- 1 860 potential respondents contacted
- One response in English (national origin untraceable)
- 14 reminder waves sent between March and May
